< To Whom it May Concern / Dear ..... >

I am writing this letter to you looking for your support regarding the following Bills to amend, clarify and expand the Energy Employees Occupational Illness Compensation Program Act of 2000.

1. Bill S 3329, introduced by Ken Salazar in July 2008 cited as the CARE Act.
2. Bill H R 6766 introduced by Mark Udall in July 2008 also cited as the CARE Act.

I implore you to support these Bills. As of this date there have been over fifty Bills introduced to clarify / amend the Energy Employees Occupation Illness Compensation Program Act that have died in committee prior to passing. Please do not let this occur again.

The Energy Employees Occupational Illness Compensation Program Act was started to compensate the employees who worked at the approximately 350 Plants across the country. We were exposed to many forms of radiation and toxic chemicals. Many of my fellow workers across the country are dead or dying with no compensation due to the many issues of the handling of these claims. I am requesting immediate assistance to get the CARE Acts passed and enacted as there are many of us who are running out of time.

Please, please, please pass the CARE Acts as soon as possible. Our futures depend on it.

< personal story here, if interested >

Sincerely,
